**Rough opening sizes (used for the purposes of estimates) for windows and patio doors are often 105%–110% of actual window order measurements. As a result, the square footages provided by contractors for cost estimates may overestimate the total square footage by 10% (or occasionally more). Final window measurements are used for calculating incentives.*

Upon signing this agreement, customer acknowledges the following: Rebate offer(s) may be changed or discontinued at any time by Monmouth Power & Light (MP&L). MP&L disclaims any warranty, whether expressed or implied, regarding the measure(s) listed on this application for any materials or labor associated with installation, maintenance, repair, or any energy savings associated with use.

I understand that the measure(s) must be installed to MP&L specifications and certify that I, or my contractor, have reviewed the specifications prior to beginning work. When selecting a contractor, I understand that it is the homeowner’s responsibility to request proof of insurance and licensing that meets the statutes and rules of the Oregon Construction Contractors Board. MP&L strongly recommends validating qualifications before work begins.

Signature _____ **Date** _____

Rebate(s) will be paid when MP&L has received a complete rebate application and all required documentation for the project. Documentation must include copies of contractor’s final invoice(s) and a copy of **one NFRC sticker per window**. Contractor’s final invoice(s) must include window measurements. An MP&L energy efficiency representative will collect required paperwork at the time of final inspection or you may submit completed forms and copies of invoice(s) to:
